Remarks:

1. Students must complete 27 credits (including 3 credits of master's thesis), and pass the thesis writing and oral examinations before they can graduate and obtain a master's degree.
2. Those who have completed the total graduation credits of 27 credits, but the length of study must be extended (more than the second year), from the third year onwards, they must choose an additional course of 3 credits of "Master's Thesis".
3. Course Credit Waiver Guidelines: Graduate students of this department who have taken relevant courses in this university or the graduate school of other universities can apply for a course credit waiver in accordance with the relevant regulations of this school or this department. The credits for off-campus study can be credited up to 6 credits. Students should send the relevant credit application to the departmental meeting to consider whether the credit is allowed, and the total credit should not exceed one-half of the graduation credits required.
4. According to "Student Academic Research Ethics Education Implementation Guidelines of Asia University", starting from the 109-academic year (2020), all students enroll into the master's program, in-service master's program and doctoral program of each department, institute need to take 6 hours of designated courses through the online platform of "Taiwan Academic Ethics Education Resource Center", and pass the general test before applying for the degree exam.
